"The General Assembly,

"Recalling its resolution 48/170 of 21 December 1993, in which it recognized the necessity of improving the efficiency of the current transit environment in the newly independent and developing land-locked States in Central Asia and their transit developing neighbours,

"Recalling also its resolution 48/169 of 21 December 1993, entitled "Specific actions related to the particular needs and problems of land-locked developing countries", and expecting that the newly independent land-locked States in Central Asia will participate in the activities and meetings referred to in that resolution,

"Recalling further the agreed conclusions and recommendations on priority areas and modalities for further action to improve transit systems in land-locked and transit developing countries of the Meeting of Governmental Experts from Land-locked and Transit Developing Countries and Representatives of Donor Countries and Financial and Development Institutions, convened by the Trade and Development Board in New York from 17 to 19 May 1993, as set forth in the report of the Meeting of Governmental Experts, 19/

"Recalling further in particular those paragraphs of the agreed conclusions and recommendations of the Meeting of Governmental Experts pertaining to the newly independent and developing land-locked States in Central Asia and their transit developing neighbours,

"Noting that these countries are seeking to enter world markets and that such an objective requires the establishment of a multi-country transit system,

"Recognizing that the lack of territorial access to the sea, aggravated by remoteness and isolation from world markets, and prohibitive transit costs and risks impose serious constraints on the overall socio-economic development efforts of these countries,

"Recognizing also that most of the countries providing alternative transit routes are themselves developing countries facing serious economic

problems, including the lack of adequate infrastructure in the transport sector,

"Supporting the current efforts being undertaken bilaterally and multilaterally by the newly independent and developing land-locked States in Central Asia and their transit developing neighbours to address the issues of the development of a viable transit infrastructure in the region,

"Recognizing the important role played by bilateral cooperative arrangements by multilateral agreements, by regional and subregional cooperation and, in particular, the Economic Cooperation Organization, which the General Assembly, in its resolution 48/2, invited to participate in its sessions and work in the capacity of observer, in solving the transit problems in the newly independent and developing land-locked States in Central Asia and their transit developing neighbours,

"Taking note of the report of the Secretary-General on transit transport systems of the newly independent and developing land-locked States in Central Asia and their transit developing neighbours: current situation and proposals for future action, 20/

"Noting that this report, as stated in paragraph 1 of its introduction, represents a first approximation only towards a fuller elaboration of more concrete programmes of action for dealing with the issues,

"Recognizing that to be effective, a transit transport strategy for the newly independent and developing land-locked States in Central Asia and their transit developing neighbours should incorporate actions that both address the difficulties inhering in the use of existing transit routes and pave the way for the early development and smooth functioning of new, alternative routes,

"Emphasizing the importance of strengthening international assistance for carrying out a comprehensive and full-scale analysis of the transport and transit problems of the newly independent and developing land-locked States in Central Asia and their transit developing neighbours in order to make concrete recommendations, establish priorities and seek support for implementation action needed to improve the transport and transit situation in these countries,

"1. Invites the Secretary-General of the United Nations Conference on Trade and Development, in cooperation with the United Nations Development Programme, the Economic and Social Commission for Asia and the Pacific, the Economic Commission for Europe, the Economic Cooperation Organization, and with other relevant regional organizations, to elaborate a programme for improving the efficiency of the current transit environment in the newly independent and developing land-locked States in Central Asia and their transit developing neighbours and to make a comprehensive analysis of the

transit system for Central Asian countries, paying particular attention to the development of all new, appropriate and feasible alternative transit routes and corridors, including the shortest ones, and to submit an interim progress report thereon to the General Assembly at its fiftieth session;

"2. Calls upon donor countries and multilateral financial and development institutions to provide newly independent and developing land-locked States in Central Asia and their transit developing neighbours with appropriate financial and technical assistance in the form of grants or concessional loans for the construction, maintenance and improvement of their transport, storage and other transit-related facilities, including alternative routes and improved communications;

"4. Requests the United Nations Conference on Trade and Development, in collaboration with the Economic and Social Commission for Asia and the Pacific, the Economic Commission for Europe, and the Economic Cooperation Organization and with other relevant regional organizations, to hold a regional symposium for the newly independent and developing land-locked States in Central Asia and their transit developing neighbours during the first half of 1996 to evaluate the progress of action on the recommendations contained in the present resolution and to agree on an appropriate follow-up programme of action;

"5. Requests the Secretary-General of the United Nations Conference on Trade and Development to prepare a report on the implementation of the present resolution, to be submitted to the General Assembly at its fifty-first session."

25. At the 34th meeting, on 13 December, the Vice-Chairman of the Committee, Mr. Raiko S. III/Corr.1)) (United Nations publication, Sales No. E.93.I.8 and corrigenda), vol. I, Resolutions adopted by the Conference, resolution 1, annex II.

34/ See resolutions 2904 (XXVII), 31/2 A and B and 34/3.

Emphasizing the importance of an open, rule-based, equitable, secure, non-discriminatory, transparent and predictable multilateral trading system,

Also emphasizing that a favourable and conducive international economic and financial environment and a positive investment climate are necessary for the economic recovery and growth of the world economy, in particular for the sustained economic growth and sustainable development of developing countries,

Welcoming the successful conclusion of the Uruguay Round of multilateral trade negotiations at the Ministerial Meeting of the Trade Negotiations Committee, held at Marrakesh, Morocco, on 15 April 1994, and noting that the Uruguay Round agreements 35/ represent an historic achievement, which is expected to contribute to strengthening the world economy and to lead to more trade, investment, employment and income growth throughout the world and in particular to the promotion of sustained economic growth and sustainable development in developing countries,

Noting that the Uruguay Round agreements represent a substantial liberalization of international trade, the strengthening of multilateral rules and disciplines to ensure more stability and predictability in trade relations, the establishing of rules and disciplines in new areas and the founding of a new institutional framework in the form of the World Trade Organization, with an integrated dispute settlement mechanism which should avoid unilateral actions against international trade rules,

Recognizing that the developing countries have made a major contribution to the success of the Uruguay Round, in particular by accepting the challenges of trade liberalization reforms and measures and stressing that there is a need for positive efforts designed to ensure that developing countries, and especially the least developed among them, secure a share in the growth in international trade commensurate with the needs of their economic development,

Also recognizing that subregional and regional economic integration processes, including those among developing countries, which have intensified in recent years, impart substantial dynamism to global trade and enhance trade and development possibilities for all countries, and stressing that in order to maintain the positive aspects of such integration arrangements and to assure the prevalence of their dynamic growth effects, Member States and groupings should strive to be outward oriented and supportive of the multilateral trading system,

Expressing concern that during the reform programme leading to greater liberalization of trade in agriculture, least developed countries and net food importing developing countries may experience negative effects in terms of the availability of adequate supplies of basic foodstuffs from external sources on reasonable terms and conditions, including short-term difficulties in financing normal levels of commercial imports of basic foodstuffs, and stressing, in this context, the importance of establishing appropriate mechanisms, as provided in paragraph 3 of the decision on measures concerning the possible negative effects

of the reform programme on least developed and net food importing developing countries of the Final Act of the Uruguay Round, 8/ and stressing also the need to keep under review the specific needs of the least developed countries and to continue to seek the adoption of positive measures that will facilitate the expansion of trading opportunities in favour of those countries,

Recognizing the importance of assisting, in particular, African countries and island developing countries so that they benefit fully from the implementation of the Uruguay Round agreements,

Recognizing also that the full integration of countries with economies in transition into the multilateral trading system would have a positive impact on world trade and global economic growth and sustainable development, and stressing, in this context, the importance of promoting the trade of developing countries with economies in transition, as well as regional economic integration processes and cooperation among economies in transition and between them and developing countries,

Stressing the need to promote, facilitate and finance, as appropriate, access to and the transfer of environmentally sound technology and the corresponding know-how, in particular to the developing countries, on favourable terms, including on concessional and preferential terms, as mutually agreed, taking into account the need to protect intellectual property rights, as well as the special needs of the developing countries for the implementation of Agenda 21,

Taking note with satisfaction of the decision on trade, environment and sustainable development adopted by the Commission on Sustainable Development at its second session, 36/ and, in this context, recognizing in the spirit of a new global partnership for sustainable development the need for a balanced and integrated approach to environment, trade and development issues,

37/ Official Records of the General Assembly, Forty-ninth Session, Supplement No. 15 (A/49/15), vol. I.

38/ A/49/15 (vol. II).

2. Emphasizes the importance of follow-up and monitoring of the implementation of the policies and measures contained in the Cartagena Commitment, adopted by the United Nations Conference on Trade and Development at its eighth session, held at Cartagena de Indias, Colombia, from 8 to 25 February 1992;

3. Stresses the urgent need for trade liberalization, including through substantial reduction of tariffs and other barriers to trade and the elimination of discriminatory treatment in international trade relations, and improved access to the markets of all countries, in particular those of the developed countries, in order to generate global economic growth and sustainable development for the benefit of all countries, in particular the developing countries;

4. Stresses also the importance of the urgent and full implementation of the agreements contained in the Final Act Embodying the Results of the Uruguay Round of Multilateral Trade Negotiations and the significance of the entering into force of the Agreement Establishing the World Trade Organization by 1 January 1995;

5. Emphasizes the importance of the full implementation of the provisions contained in the Final Act Embodying the Results of the Uruguay Round of Multilateral Trade Negotiations, which confers special and differential treatment for developing countries, including giving special attention to the situation of the least developed countries;

6. Emphasizes also the need for continued evaluation of the implementation of the Uruguay Round agreements to ensure the expansion of world trade in order to promote sustained global economic growth and sustainable development;

7. Deplores any attempt to bypass or undermine multilaterally agreed measures of trade liberalization, through resort to unilateral actions, over and above those agreed to in the Uruguay Round, and reaffirms that environmental and social concerns should not be used for protectionist purposes;

8. Recognizes that, in order to promote sustained economic growth and sustainable development, environment and trade policies should be made mutually supportive and, in this context, takes note with satisfaction of the decision taken at the Ministerial Meeting of the Trade Negotiations Committee to establish a Committee on Trade and Environment;

9. Emphasizes the importance of giving special attention to the least developed countries, with a view to enhancing their full participation in the multilateral trading system, and emphasizes the importance of commitments pertaining to special and differential measures to mitigate any adverse effects of the implementation of the Uruguay Round;

10. Emphasizes also that African countries should benefit fully from the results of the Uruguay Round, and stresses the need for technical assistance for African countries to enable them, inter alia, to evaluate the impact of the implementation of the Final Act Embodying the Results of the Uruguay Round of

Multilateral Trade Negotiations, to enable them to identify adaptive measures to enhance their competitiveness and to facilitate their access to developed countries' markets;

11. Requests preference-giving countries to consider improvements in their preferential schemes and invites the 1995 Policy Review on the Generalized System of Preferences to examine possible adaptations to the Generalized System of Preferences, taking into account paragraphs 134 to 140 of the Cartagena Commitment;

12. Reaffirms the role of the United Nations Conference on Trade and Development as the appropriate focal point within the United Nations for the integrated treatment of development and interrelated issues in the areas of trade, finance, technology, investment, services and sustainable development, and requests the United Nations Conference on Trade and Development to continue its role in the field of trade and environment, including policy analysis, conceptual work and consensus-building, with a view to ensuring transparency and coherency in making environmental and trade policies mutually supportive, taking into account the work done by the General Agreement on Tariffs and Trade and other competent and regional economic institutions;

13. Stresses the need for the full integration of the economies in transition, as well as other countries, into the world economy, in particular through improved market access for their exports, including through, in accordance with multilateral trade rules, the reduction and elimination of discriminatory tariff and non-tariff measures, and the further liberalization of their trade regimes, including vis-à-vis developing countries, and also stresses, in this context, the usefulness of studies and technical assistance provided by the United Nations system regarding trade and trade-related problems that the economies in transition are encountering in their integration into the multilateral trading system;

14. Requests the United Nations Conference on Trade and Development to focus and intensify its technical assistance in the light of the Uruguay Round agreements, with the aim of increasing the capacities of developing countries, especially the least developed countries, African countries and island developing countries, so that they may participate effectively in the international trading system;

15. Requests the United Nations Conference on Trade and Development to make proposals for translating the commitments made at the Ministerial Meeting of the Trade Negotiations Committee regarding the least developed countries and net food-importing countries into concrete action.

Underscoring the importance of international cooperation to support policies and measures of island developing countries in the area of trade so as to complement the Programme of Action for the Sustainable Development of Small Island Developing States, 40/ adopted at the Global Conference on the Sustainable Development of Small Island Developing States,

DRAFT RESOLUTION V

United Nations International Symposium on Trade Efficiency

The General Assembly,

Recalling the document entitled "A New Partnership for Development: the Cartagena Commitment", 43/ adopted by the United Nations Conference on Trade and Development at its eighth session, in which, inter alia, was launched the concept of trade efficiency and the process leading to the United Nations International Symposium on Trade Efficiency,

Stressing the importance of trade as a major instrument of economic growth and sustainable development for all countries, in particular developing countries and the need to find solutions to microeconomic issues of international trade, which can significantly contribute to more open, dynamic and efficient trade relations,

Conscious of the significant importance information technology and the application of efficient trading practices will have in the coming years in enhancing the competitiveness of countries and enterprises through the use of electronic trade,

Noting the valuable contribution made by various organizations from within and outside the United Nations system and in particular by Working Party IV of the Economic Commission for Europe to the successful conclusion of the Symposium,

Reaffirming the need to give priority attention to the problems facing the developing countries, in particular the least developed countries, and encouraging all developing countries to continue to be active participants in international trade affairs and to adopt proved and successful business methods and techniques,

1. Expresses its deep gratitude to the Government and the people of the United States of America, as well as to the city of Columbus, Ohio, for hosting the United Nations International Symposium on Trade Efficiency, for the hospitality extended to the participants and for the facilities made available to the Symposium;

3. Also welcomes the official launching of the Global Trade Point Network, which, by electronically interconnecting trade points worldwide, will allow all member countries to trade more efficiently with each other and assist those that have so far remained at the fringe of international trade to participate actively and profitably in it, in particular the least developed countries and small and medium-sized enterprises in all countries;

4. Expresses its satisfaction with the high-level participation in the Symposium, with the innovative procedures introduced for making the proceedings of the Symposium more dynamic and action-oriented, including better interaction among the governmental and non-governmental participants;

DRAFT RESOLUTION VI

Transit environment in the land-locked States in Central
Asia and their transit developing neighbours

The General Assembly,

Recalling its resolutions 48/169 and 48/170 of 21 December 1993,

Recalling further the agreed conclusions and recommendations of the Meeting of Governmental Experts from Land-locked and Transit Developing Countries and Representatives of Donor Countries and Financial and Development Institutions, convened by the Trade and Development Board in New York from 17 to 19 May 1993, 44/ and in particular, the conclusions and recommendations of the above Meeting pertaining to the newly independent and developing land-locked States in Central Asia and their transit developing neighbours,

Recognizing that the overall socio-economic development efforts of these countries, seeking to enter world markets through the establishment of a multicountry transit system, are impeded by a lack of territorial access to the sea as well as by remoteness and isolation from world markets,

Supporting the current efforts being undertaken by the newly independent and developing land-locked States in Central Asia and their transit developing neighbours through relevant multilateral, bilateral and regional arrangements to address the issues regarding the development of a viable transit infrastructure in the region,

Taking note of the report of the Secretary-General entitled "Transit transport systems of the newly independent and developing land-locked States in Central Asia and their transit developing neighbours: current situation and proposals for future action", 45/

Noting that the report, as stated in paragraph 1 of its introduction, represents a first approximation only towards a fuller elaboration of more concrete programmes of action for dealing with the issues,

Recognizing that to be effective, a transit transport strategy for the newly independent and developing land-locked States in Central Asia and their transit developing neighbours should incorporate actions that address both the problems inhering in the use of existing transit routes and the early development and smooth functioning of new, alternative routes,

Emphasizing the importance of strengthening international support measures to address further the problems of newly independent and developing land-locked States in Central Asia and their transit developing neighbours,

44/ TD/B/40(1)/2-TD/B/LDC/AC.1/4.

4. Requests the Secretary-General of the United Nations Conference on Trade and Development to prepare a report on the implementation of the present resolution, to be submitted to the General Assembly at its fifty-first session.
